

Sand Trim Kit for 2" Back Pressure Regulator consists of:

- Carbide tipped plunger and carbide seat which replaces ball & seat and lower spring keeper.
- Available in 200, 500 and 900 PSI (2" Model Only).
- Less vibration.
- Smoother flow.
- More abrasion resistance.
- Greater control sensitivity.

2" Back Pressure Regulator			
Pressure Range	Orifice	Ball Size	Spring Material
5-200 PSI	.875"	1.125"	Monel
10-500 PSI	.875"	1.125"	302 SS
10-900 PSI	.875"	1.125"	Carbon Steel
10-1500 PSI	.683"	1.000"	Carbon Steel*

*Same spring used in 10-900 PSI model

B-29™

Adjustable Choke (B-29™)

- Thumb screw secures stem setting position.
- Stem can be lubricated with standard grease gun.
- Available carbide trim for increased abrasion resistance.

SPECIFICATIONS	B-29™
Size	2" x 2" LP
Working Pressure	2000 PSI
Max Orifice Size	3/4"
Height	
Open	17-5/8"
Closed	16-3/8"
Weight	20 lbs.

Note: Adjustable chokes are not intended to be used as shutoff valves.
